## \$480,000,000 FOR HOUSING 452,650 THROUGH COUNTRY

Year's Work Thus Far Provides for 90,570 Families— 32,840 in Metropolis.

Home builders throughout the country have housings under way from plans filed since the first of the year for 20,570 families, or 452,850 persons, at a constructional cost of \$480,000,000

Many small houses have been completed and are occupied. From al. quarters come reports that the housing crisis is passing. Residential proseck They average 30 per cent of Screen Plays week. They average 30 per cent of total building operations, which is a" fair normal as revealed by records of the past decade.

Nearly alf States show that the reasons. First, the housing needs, asmade public, represented the extrem--a condition of supply which in normad times had never been attained. Second, the depression in busi-ness has forced many families to manding. Third, the closing of big plants in busiling industrial centres where war rush work had caused population in concentrate much faster than housings could be provided has been driving a great mass of disworkers to other sections, thus stattering them through places where living conditions have not been so consisted.

were indicated as so argently required in last year's surveys. Much relief is noted already from less than one-tenth of this volume, and build the constitution of the volume, and build the constitution of the first time at popular to the first time at popular time at popular to the first time at popular ti

ROPOLITAN AREA.

Reports to F. W. Dodge company from twenty-seven Northeastern States show housing projects started since the first of the year for 89,500 femilies, or 422,500 persons, at a constructional cost of \$456,432,700. This allows the prevailing average of so per cent, residential in total volume of work, which has been \$1,578,100,000, and figures \$5,300 as the average cost for housing one family of his persons. In the metropolitan district, which

last year, some investigators declaring that here homes were required for ream looses to 130,000 families, or \$1,000 to 500,000 persons. The big linding boom following the tax exemption measures, however, seems to promise a fair surprise of iousings, both in apartments and small printed dwellings, during the coming who of spring.
